

Page 1 of 7 · Berries on the Run

Luckybug reaches Hen-Berry’s stall just as a basket tips. Seven berries stop by the flowers and five roll beneath the table.

Page 2 of 7 · The Empty Egg Tray

Hen-Berry began with 18 eggs. Six have already gone into breakfast pies, and the morning queue is growing.

Page 3 of 7 · Two Flower Baskets

Luckybug gathers nine yellow flowers and eight purple flowers so the stall looks welcoming again.

Page 4 of 7 · Tokens for Change

The change box holds 20 wooden tokens. Seven customers use one token each before the bell rings.

Page 5 of 7 · Matching Jam Jars

Hen-Berry places six jam jars on each of two shelves. Luckybug checks that the shelves match.

Page 6 of 7 · A Sign for Every Stall

Fifteen picture-signs were painted, but nine are already hanging above stalls. The rest still need string.

Page 7 of 7 · The Noon Bell

Eight woodland friends arrive from one path and seven from another. The market opens with every stall ready and nobody left waiting.

Questions for Luckybug and the Market Morning Mix-Up

Read the story together first. Use one question at each page, then the question at the end. Answers are below the dotted line: fold them under or cover them while reading.

Page 1 · Berries on the Run

How many berries rolled out altogether?

Choices: 10 · 11 · 12 · 13

Page 2 · The Empty Egg Tray

How many eggs remain?

Choices: 10 · 11 · 12 · 14

Page 3 · Two Flower Baskets

How many flowers are in both baskets?

Choices: 15 · 16 · 17 · 18

Page 4 · Tokens for Change

How many tokens are left?

Choices: 11 · 12 · 13 · 14

Page 5 · Matching Jam Jars

What is double 6?

Choices: 6 · 10 · 12 · 14

Page 6 · A Sign for Every Stall

How many signs still need string?

Choices: 5 · 6 · 7 · 9

Page 7 · The Noon Bell

How many friends arrive altogether?

Choices: 13 · 14 · 15 · 16

Answers (fold under before reading)

Page 1: 12. Make 10 first: 7 needs 3, leaving 2. Then 10 + 2 = 12.

Page 2: 12. Subtract 6 from 18: count back 18, 17, 16, 15, 14, 13, 12.

Page 3: 17. Move 1 from the group of 8 to make 10. Then 10 + 7 = 17.

Page 4: 13. Take away 7 from 20. Count back 7 steps to reach 13.

Page 5: 12. Double means two equal groups: 6 + 6 = 12.

Page 6: 6. Find the difference: 15 - 9 = 6. You can count up from 9 to 15.

Page 7: 15. Eight plus 7 can become 10 + 5, which equals 15.
